

## CLEARCO MAGNETIC WELDING JELLY

6 & 16 oz can sizes

Clearco magnetic Welding Jelly is a gel-type anti-spatter formulated with high temperature synthetic release agents to provide easy release of spatter, and to prevent clogging in Mig Welding gun nozzles and tips. It will hold up in conditions of extreme heat and friction. Even in production work, you will only have to apply a few times a day.

Clearco Welding jelly comes in 6 & 16 oz. sturdy metal cans as well as 1 Gallon and 5 Gallon containers. The cans are equipped with magnetic bases, preventing tip-overs. Unlike plastic containers, the cans can be placed on heated surfaces without damage, making it much easier to use than conventional products.

### Properties

Magnetic Cans	6 oz. (12-6 oz. cans per case) 16 oz. (6-16 oz. cans per case)
Bulk	1 & 5 Gallon containers
Weight	6 oz. cases – 6 lbs. 16 oz. cases – 8 lbs.
Freight	F.O.B. Phila, PA

Prevent Mig nozzles from clogging.
